MEF University

Founded by **İbrahim Arıkan**, primarily a Physics Teacher, **creator of MEF Schools** and a successful businessman, the vision was set to be an **innovative university** in the way the education they provide.

(1941 - 2016)

MEF University

Proposed by founder **Rector Muhammed Şahin**, our University embraced *flipped approach* to learning and teaching as their global educational philosophy from day 1.

As a young University, established in 2012 and begin to accept students in 2014.
We celebrated our first Bachelor graduation last June 2018.

MEF University

5 Faculties (15 Bachelor)

2 Institutes (13 Masters)

200+ instructors

3300 students.

We are 4, working at Research Center for Learning and Teaching Practices (CELT)

Workshops, 1-1 Trainings, Writing, Speaking and EdTech.

Using Blackboard since our foundation

Blackboard

Dinçer Özoran

Currently

at MEF University as Vice Director at
Research Center for Learning and Teaching
Practices (CELTP)

Previously

at Atılım University Computer Engineering
Department as a TA for 9 years.

Dinçer Özoran

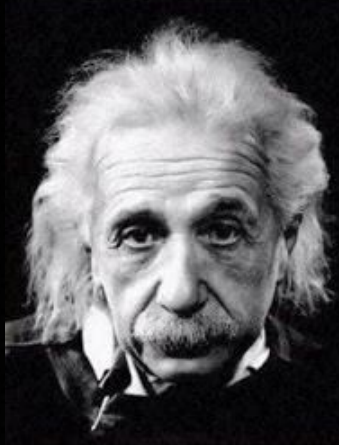

Currently

writing his PhD thesis on **Flipped Learning**
at EdTech Program of METU

Previously

graduate of B.S. in Computer Engineering
and M.S. in Cognitive Sciences.

Dinçer Özoran

The only thing that interferes with my learning is my education.

-Albert Einstein

Passionate about **Education**.

Believes that education should be for people to **develop their own way** to contribute to society.

Views of MEF Instructors on these Platforms

Prof. Dr. Can Fuat Delale, Calculus II

The platform boasts a rich library of questions.

With quizzes and homework, the student is presented with a randomly assigned question that is categorized based on the level of difficulty. These are graded automatically. Another fine attribute of the system is that it allows students with an environment to study on their own.

Prof. Dr. Semra Ağralı, Supply Chain Management

It is not the kind of thing you can assess the usefulness of, without utilizing it directly.

For instance, an online quiz is uploaded online on Monday night and they have time until Tuesday night to wrap it up. I have allowed them to go back, check on their own responses and make amendments. That is because I mostly used the quizzes as a tool to make them think “I couldn’t do this one, let me go back and rectify”, instead of assessing their level of understanding.

6 Characteristics To Increase Technology Adoption -Thorpe, L. (2015)

1 - Leadership from the top

2 - Institutional commitment and investment

3 - Robust and reliable infrastructure

4 - Effective and available support for academic staff

5 - Ability to demonstrate the benefits to the student and staff experience

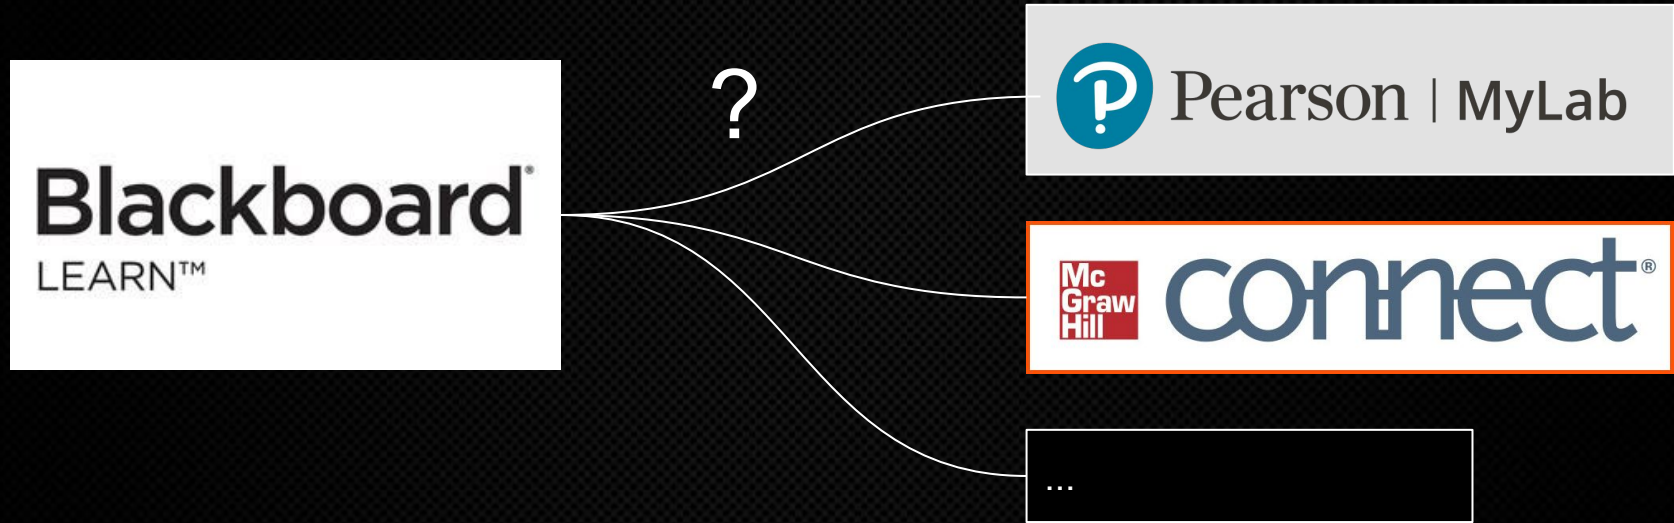

6 - Evidence-based decision-making and a continuous cycle of improvement

1 - Leadership

2 - Commitment and Investment

3 - Reliable Infrastructure

- 4- Academic support
- 5- Promote among Instructors and Students
- 6- Continuous improvement

2017-2018 SPRING (Free Trial)

18 Courses

870 Students

2018-2019 FALL

38 Courses

2.200 Students

2018-2019 SPRING

~50 Courses

1500 students

Total cost of 2018-2019 for MEF ~500.000 TL

A man with a beard and short dark hair, wearing a light blue button-down shirt and mustard yellow trousers, stands on a modern staircase with wooden railings. He is looking directly at the camera with a slight smile. The background is a blurred interior space with warm lighting.
